  @EduExoKit

What is it?

The EduExo is a STEM education kit that introduces robotic exoskeleton technology. It contains the hardware required to build an elbow exoskeleton and a comprehensive handbook with a tutorial.

Who is it for?

- High school and college students who want to prepare themselves for a career in wearable robotics.
- Makers and hobbyists who are looking for an interesting and entertaining project.
- Teachers and professors who want to set up exoskeleton courses or labs. The EduExo provides additional teaching material and can save a lot of time and money.

How can I get one?

The EduExo is a product of Beyond Robotics GmbH. Order your own EduExo exoskeleton kit in our online shop. Visit our website for more information.
